

HARVEST CRAFT

HARVEST CRAFT objective:

As a forest company you must harvest **1** stand of trees  while taking into consideration the other users of the area.

Work as a team to make the best stewardship decision to manage this forest.

1. You will **begin with 100 points**.
2. You must **start at one of the four orange squares**.
3. **Discuss as a team** the best harvest options.
4. **Use your marker** to show your harvest route.
5. **Draw a road 1 cm wide** to get to your trees.
6. Subtract points from your total based on

your actions and impacts:

Cross a creek (minus) - 30 points

Build within 1 cm of a wetland (minus) - 20 points

Cross private land (minus) - 10 points

Disturb endangered species area (minus) - 30 points

Build a road (minus) - 20 points

Disturb a sacred site area (minus) - 30 points

TOTAL: 100 - _____ = _____

Think creatively and plan your harvesting responsibly to keep as many points as possible.
